

Statement of Purpose

At Unique Village Fostering our purpose is to transform the lives of vulnerable children and young people by providing a nurturing, safe, and supportive family environment that allows them to thrive. Based in Mitcham, London, our agency is committed to recruiting, training, and supporting dedicated foster carers who share our vision of enabling every child to reach their full potential.

We recognise that every child is unique and requires tailored support that respects their individual needs, background, religion, culture and aspirations. Our mission is to ensure that every child placed with our foster families receive the stability, love, and guidance essential for their development, resilience and success.

Our team at Unique Village is driven by core values of compassion, respect, integrity, and empowerment. We work collaboratively with foster carers, local authorities, and support networks to provide high-quality care, ensuring all our placements are matched carefully and supported by expert guidance. We are dedicated to continuous learning and improvement, aiming to build a diverse network of foster carers who represent the rich cultural fabric of London communities and can offer children safe spaces that feel like home.

Through a robust training program and ongoing professional support, we empower our carers to make a positive impact on young lives, offering children the hope and stability they deserve. Our goal is not only to provide temporary care but to foster long-lasting relationships that inspire confidence, trust and positive outcomes for children in our care.

In addition to our support for carers we have additional support for the children and young people in our care via our partnership with Unique Talent Youth Hub. Unique Talent Youth Hub has been working with local authorities since 2015 supporting young people and their parents and carers. The services that are available through our youth hub are;

- Mentoring/Coaching & Conflict Mediation.

- Educational workshops & training (optional AQA accreditation)
- Music & Media Production Training (optional AQA accreditation)
- Empowerment Youth work
- Charity Clothing shop (preparation for employment)
- Specialist mentoring for young people at risk of Child criminal exploitation.
- Alternative Education & Bespoke support for Children with Educational, Health and Care Plans & Special Educational Needs.

These additional services add an extra layer of support for the children, young people and foster families.

Together, we are committed to building brighter futures, one family at a time.
